# 2021 Capital Festive Drive

**MESSAGE BY HIS WORSHIP THE MAYOR  
COUNCILLOR MZIMKHULU THEBOLLA  
FOR THE CAPITAL FESTIVE DRIVE PAMPHLET 2021**

As the country concludes yet another eventful and somewhat difficult year which has been characterised by social civil unrests and the continued negative impact of the global catastrophic Covid-19. The July civil unrest didn't only disrupt the lives of many people, it not only destroyed business, collapsed the infrastructure and left many people without their jobs and businesses. It opens bare a lot of racial tensions and intolerance amongst our people, it exposed inequality and the gap between "the haves and the have

nots".

As thousands of the people particularly in our city continue to pick up the pieces it is imperative that we emphasize that racism and ethnicity, whether practiced by Whites, Indians, Coloured's or Africans is unacceptable and needs to be tackled far more effectively by all of us in this city. We can't just appeal to people to respect each other. We need in practice to reduce the astronomical material inequalities that exist between the races. Since 1994 we have in fact made sizable progress, but we still have to do far more.

As we launch the Capital Festive Drive 2021, I want to take this opportunity to thank the Pietermaritzburg Tourism, for their continued strives to ensure that the tourism in our city continues to make strides despite the difficulties we have had to face this. We know that for any disruption, the tourism activities always suffer the most often bringing the entire industry and related businesses into its knees.

Fellow citizens 25 November – 10 December signifies the period of 16 Days of Non-Violence and activism against women and children During the 16 Days period, government together with civil society and the private sector will host a series of community and sector dialogues and activities to foster a collaborative effort in dealing with GBV. We urge all communities in our municipality to play an active role by not looking away and keeping silence on the GBV and other forms of violence.

Equally we encourage people to take time from their ever busy schedules to commemorate the World Aids Day on the 1st of December which is a reminiscence occasion for all those infected and affected by the scourge of HIV/Aids and continue to seek interventions to deal with the continued spread and stigma of HIV/Aids in our homes, communities and society at large

We will shortly be descending to the festive season, our city will be welcoming thousands of holiday makers as well as visitors for our city is known to be a friendly city and boasts with various tourism and hospitality destination for visitors.

We can assure you that Msunduzi Municipality is tripling its efforts to ensure that key priority areas are met namely clean city, safe city, improved traffic control, Covid -19 restriction compliance and improved infrastructure. We call all citizens to welcome all visitors into the city and be vigilant and report all illegal activities and unacceptable behaviour that compromises the safety and wellbeing of other human beings.

Together with our security cluster we will be embarking on the campaigns to strengthen safety and security as well as road safety awareness campaigns and compliances. The wellbeing of our people is a priority to the City of Msunduzi and we thus call for vigilance to all patrons of our city during this time.

We will be failing in our duty if we don't accentuate the need to spend wisely during this time as more people are embarking on shopping sprees for Christmas festivities. We are cautioning against highly excessive spending precisely because the school season kicks in January where there is a greater and essential need for financial solidity.

We also call for empathy and consideration of those less fortunate during this time and encourage giving and sharing. Most of the people will be taking a break from work to reflect on the year and prepare for 2021, Msunduzi will be working tirelessly to ensure that we continue to roll our effective service delivery to the people of the City of Choice they can proudly call it home again.

We wish all the organisers of different entertainment and recreational activities all the best and we once again call all citizens of our beautiful city to enjoy responsibly, refrain from drinking and driving and avoid excessive spending in light of economic crisis.
