OVERVIEW

Trade & Investment KwaZulu-Natal (TIKZN) is a KZN economic investment implementing entity under the Department of Economic Development, Tourism and Environmental Affairs (EDTEA). TIKZN's mandate is to grow the economy through the facilitation of foreign direct investments (FDIs), Domestic Direct Investment (DDIs), Business Retention and Expansion (BRE) as well as Export Trade.

uMgungundlovu District contributes 10% to KZN's GVA and 12% to KZN's employment, which further stresses the importance of the district to KZN. Furthermore, employment in Msunduzi has been growing at 2.8% since 2012, which is a percent higher than growth in KZN. Education, historic sites, and world class sporting events are amongst the most attractive features in the district coupled with investment opportunities in ICT, tourism, construction, manufacturing, property development, transport and logistics and farming.

The district has also been earmarked for major corridor development which is expected to boost the district's economy and attract local, national, and international role players. The district enjoys a competitive advantage in the field of agriculture, tourism, and manufacturing as key economic sectors.

The objective of the Investor Workshop is to improve the business environment in uMgungundlovu District. It is also to showcase some of the services offered by the entities operating under uMgungundlovu District One Stop Shop which are.

- **Department of Trade, Industry & Competition** – grants and incentives for manufacturing entities
- **Agency for food safety** – export permits offered to farmers of beef and poultry products
- **Tourism Grading Council** – grading of properties operating as hotels and BnBs
